

COVID-19 Update: 8th June 2020

RF aims to keep you informed and below are some of the key developments locally, regionally and globally. The sooner the economies of the US, Canada and Europe recover the sooner our markets will recover.

The charts below show that both The Bahamas and Barbados continue to make good progress in controlling the spread of COVID-19. Both countries continue to re-open the economy as per their stated re-opening phases.

Source: Johns Hopkins University & Medicine – Coronavirus Resource Center; Bahamas Ministry of Health COVID-19 Dashboard; Barbados Government Information Centre.

The table below shows that the Dominican Republic (DR) remains the hot spot in the Caribbean with 4,058 new cases over the last 10 days. Haiti has now surpassed Cuba after adding 1,891 new cases. The Cayman Islands saw an increase of 24 cases over the last 10 days, but to date they have tested 13,947 people, or 21.22% of the population which is one of the highest testing rates globally. The Bahamas had 2 new cases and Barbados had nil new cases.

Regional Updates

Bahamas

- The Bahamas has started to transition to Phase 4 of the 5-phase re-opening plan.
- The Prime Minister noted the removal of weekend lockdowns effective June 13th. The 9 pm to 5 am curfew will remain in place Monday to Sunday for now.

Barbados

- No new cases were reported since May 23 and they only have four active cases.
- To date Barbados has tested 5,900 (2.05% of the population) people. (Source: www.gisbarbados.gov.bb)

International

- The Cayman Islands have done 13,947 tests (21.2% of the population) to date of which 164 were positive and 13,783 were negative. To date they have had a single death. (Source: www.caymancompass.com)
- In the first seven days of June the number of daily cases has trended upward in the US*. The next few weeks will show whether the reopening of much of the US was premature, especially when combined to the massive protests for racial justice.

Global Market Update

The global stock market rally in April and May continued during the first week of June. The S&P500 is now in positive territory. The US economy was expected to loss an additional 7.5 million jobs in May, but instead it added 2.5 million jobs. While there is some debate about the actual number of jobs added, this news was positive and supports the idea of a v-shaped economic recovery in the US.
